

## **Madawaska Adult & Community Education**

### **Mission Statement:**

**Madawaska Adult & Community Education**, as part of a rich and diverse culture, recognizes the need to support and cultivate life-long learning for all residents to become valuable members within their families, workplaces, and communities. We believe everyone has the ability to learn and the right to work toward his/her individual potential in an engaging learning environment that encourages high expectations while supporting individual student needs. In partnership with the community, we endeavor to provide ongoing opportunities for improving basic literacy skills, earning a high school credential, preparing for higher education and training, refining employment skills, and enriching quality of life.

### **Vision Statement:**

Our vision is to motivate and inspire students to reach beyond their goals while providing a bridge for them to “connect with their future,” meeting the challenges of a growing and competitive global economy.
